

April 7, 2015

Vice Chairman David Bird called the special public meeting of the board of supervisors to order on April 7, 2015, 6:45 PM at 2435 Hickory Lane. Also present was supervisor William (Bud) Brown, Secretary JoAnn Pane and Attorney Ed Scacchitti.

The purpose of the special meeting was to address the [Ransom Township Property Numbering Ordinance](#).

JoAnn Pane read the proposed ordinance aloud. Ed Scacchitti stated for the record that the numbering in sections 9-12 were erroneous and will be corrected to read sections 8-11 and will have no effect on the outcome of the document for the purpose of this evening's meeting.

The floor was open to public comment by Ed Scacchitti. Jerry Blackwell commented that the proposed ordinance was going to be very helpful. Connie Flesch commented on her road sign, and was re-directed that this was a property numbering ordinance meeting and her concerns would be addressed during the regular supervisor's township meeting.

Ed Scacchitti again asked if there were any criticism, objection or misunderstanding regarding the ordinance that needed to be addressed before the public meeting was closed.

Robert Lukasiewicz clarified the sign requirements as they appeared listed in the ordinance and Lenay Blackwell questioned where the sign needed to appear since her mailbox was across the street. Catherine Zuby asked for clarification as to the numbering of her property in conjunction with her daughter's down the street since both houses receive mail at the same address. It was noted that in that specific case, a letter of "A" and/or "B" should be added to the end of the home address. Robert Lukasiewicz questioned if it would be the Zoning Officer's duty to check and report the violations of houses after the 60 days grace period and how this will be enforced. Ed Scacchitti indicated that there will be no specific house numbering investigation. William (Bud) Brown then stated that the BCO does his regular tour through the township and if he sees that properties have not fulfilled the required numbering, he would report it to the zoning officer. Special notifications would be provided for people on vacation etc., there will be warnings issued.

It was noted that the objective is that over time there will be a uniformity in numbering of all building's within the township.

William (Bud) Brown made a motion to adjourn the public meeting, Vice chairman David Bird seconded, All yes 0 no.

Respectfully submitted,

JoAnn Pane
